

SHAKEB AMEEN

Entrepreneur / Embedded System Specialist / Tech leader

EXPERIENCE

June 2023 – **Locus Connect Technologies Co. Ltd., Taiwan** **CTO & Co-Founder**
Present

- Co-Founded Locus Connect Technologies to build a complete wearables tech for smart factories, top sports teams and industrial asset management.
- Led a cross country team of 5 engineers, from Taiwan and India among SWE/FW/HW roles.
- Spearheaded end-to-end product delivery cycles, establishing sprint development, and up-keeping the team motivation and time-bound goal setting.

UWB-IR AOA, TDMA-TWR, TDOA NRF5340 Zephyr RTOS

Sept 2021 – **Fog Computing Assoc., Taiwan** **UWB and BLE Researcher**
May 2023

- Led deep-tech R&D in wireless positioning at Taiwan's top academic institute, resulting in 4 international patents and a Master's thesis on novel UWB/BLE TDMA-TWR protocols
- Developed PHY/MAC layer frame synchronization algorithms using Murata 2AB modules, UWB Radar, and Apache Mynewt/Zephyr to mitigate multipath interference in hostile electronic environments
- Led a team of 3 PhD and 2 Master's students in research and development.

UWB Radar Murata 2AB Apache Mynewt Zephyr NRF5x

Sep 2020 – **Microsoft Azure Labs, KIIT India** **Junior Research Fellow**
Aug 2021 Worked remotely on MQTT based task allocation for embedded RTOS task scheduling and TinyML based predictive maintenance for industrial IoT devices.

Azure IoT TinyML MQTT STM32wb55 TI CC2640

EDUCATION

Feb 2021 – **NYCU University, Taiwan (GPA 3.0/4.0)**
Aug 2023 MS in Computer Science (Dropped out to pursue startup)

Feb 2019 – **Nanhua University, Taiwan (GPA 3.8/4.0)**
Aug 2019 Exchange Student in Semester Abroad Programme

2016 – 2020 **KIIT University, India (GPA 8.1/10)**
Bachelor of Technology in Information Technology

AWARDS & ACHIEVEMENTS

June 2024 **BIRAC Award, India** **INR 5 Million Grant by Govt. of India**
Awarded the prestigious *BIG20* grant by BIRAC, worth 5 Million Indian Rupee from Govt. of India for the development of smartwatch for farm animals for early detection of diseases.

Jan 2022 **Microsoft Imagine Cup, Global** **World Finalist**
Developed a portable AI Toolkit BLE sensor for rapid dataset generation for students and underprivileged communities to learn and develop AI models for real-world applications.

Jan 2020 **Sigfox Hacking House, Taipei** **Winner of Season 2 Cohort**
Pitched a connected workforce prototype device *eCap*, serving the connected devices market for construction workers and safety managers.

Nov 2018 **Smart Odisha Hackathon, Govt. of India** **National Winner**
Won the National Prize in *Open Innovation challenge for smart technologies*, at the Smart Odisha Hackathon 2018 by Make in Odisha Conclave, Govt. of India.

Oct 2018 **TATA Crucible Corporate Hackathon** **Grand Prize Winner**
Developed a winning solution for the *Smart City Enabler challenge - CityX* a connected IoT platform for the dynamic traffic counting using Multi-protocol radio.

PERSONAL INFO

Address
📍 Hsinchu, Taiwan

Phone
📞 (+886) 977 077 657

SKILLS

Leadership Skills –
Team Management, Product Management, Project Management Entrepreneurship

Systems Engineering –
NordicSemi NRF5x Series NXP ARM Series ESP32 Series STM32 Series Raspberry Pi

Software Development –
Python C C++

RF Technologies –
UWB (Ultra Wide-band) LPWAN (LoRaWAN, Sigfox) LoRaWAN Zigbee BLE 5
